Language Functions - Forms Activity

Directions:

- 1. You have fourteen slips of paper.
- 2. Based on what you just learned, determine which are examples of language <u>functions</u> and which are examples of grammatical (linguistic) <u>forms</u>.

STOP and CHECK

3. Place those that you think are examples of language <u>functions</u> in the appropriate column on the game board.

STOP and CHECK

- 4. Now pair each with the grammatical <u>form</u> necessary to express that particular language <u>function</u>.
- 5. Discuss how you might teach one particular function/form pairing.
